

ENGINE TYPE TRAINING COSTS

(per student)

Level 1 (x5 days).....*3,250.00 AUD
Level 1 (x2 days).....*2,595.00 AUD
Level 2 (x3 days).....*2,595.00 AUD
Level 2 (x2 days).....*2,295.00 AUD
RTM/MTR.....On application

[*+ GST (if applicable)]

CASA Part 147/EASA Part 147/Transport Canada
approved courses.

Offsite training course(s):

Courses are available at the customer/operator premises. Premises must comply with SAFRAN HE ACADEMY criteria prior to the commencement of the course.
Note: To be quoted. (added costs incurred)

NETWORK PARTNERS:

(NP-HS) Helisupport (Wanaka-New Zealand)
8 Mustang Lane, Wanaka Airport,
RD2 Wanaka 9382-New Zealand

(NP-PCH) Pacific Crown Helicopters (Marcoola-Australia QLD)
27 Friendship Avenue, Marcoola QLD 4564-Australia

Training Objective / Prerequisites:

***LEVEL 1:**(O-level) maintenance courses, trainees must be aeronautical maintenance technicians with a least one year experience on gas turbine engines.

Course content [Theory=85% / Practical=15%]

-At the end of this course, the trainee will be able to identify the engine components, to describe and to explain the operation of the engine and its systems, to carry out maintenance procedures (engine installed in the airframe) & troubleshooting.

***Level 2:**(I-level) maintenance courses, trainees must have successfully completed the LEVEL 1 course on the engine type.

Course content [Practical=100%] / (Safety shoes required)

-At the end of this course, the trainee will be able to identify the engine components, to carry out all the maintenance procedures (engine removed from the airframe), mainly the removal/installation of the modules and shop replaceable units.

***LEVEL 3:**(H-level) maintenance courses, trainees must have successfully completed the LEVEL 1 & 2 course on the engine type.

Course content [Practical=100%] / (Safety shoes required)

-At the end of this course, the trainee will be able to carry out the intramodular maintenance procedures. (deep maintenance)

OTHER COURSES:

*Refresher/*Familiarisation/*Refresher & Troubleshooting/

*Fuel & Control System/

*Advanced Borescope Inspection/

*Borescope inspection/*Maintenance Manager Basics/

*Makila 1A-1A1 ECU Maintenance/

*On-Site Scheduled Inspections Support/

*Fly Your Engine Too/

*DECU,EECU Data Downloading & Analysis/

*EDR Data Reading/*Vibration Checks/

*Engine Documentation/*Engine Log-Book

*Participants must have a SAFRAN HE Customer Portal account prior to attending a SAFRAN HE ACADEMY course:
